- ▶ **AI & ML Application Development** which includes development, migration and integration with AWS Amazon Cloud, Microsoft Azure and Google Cloud Platform.
- ▶ **Cloud Development Services** which includes development, migration and integration with AWS Amazon Cloud, Microsoft Azure and Google Cloud Platform.

## Benefits of Outsourcing

Outsourcing to Volga Infotech helps you keep your business one step ahead.

- ▶ To begin with, we assure complete confidentiality of your proprietary information.
- ▶ We help you save time, money and resources with our significantly lower start-up costs, start-up times, project management costs and infrastructure costs.
- ▶ You never have to be troubled with day-to-day operations and management of the center.
- ▶ We offer dedicated facilities for each customer and our out extended workdays enable us to achieve the shortest time to market capabilities.

## Process Outsourcing Models

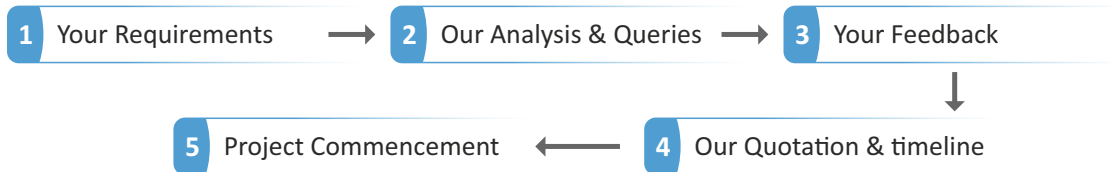

Volga Infotech believes that individuality works best in servicing our clients and that no two clients have similar requirements.

Our customers have the flexibility to choose from three different outsourcing models.

### Fixed Cost:

If you have a project that is short, has a well-defined scope and all requirements are clear, than our fixed cost software outsourcing model is best suited for you. We guarantee timely delivery of software as per pre-defined requirements. A dedicated team of specialists will be assigned to the project to help liaise with you and manage expectations better.

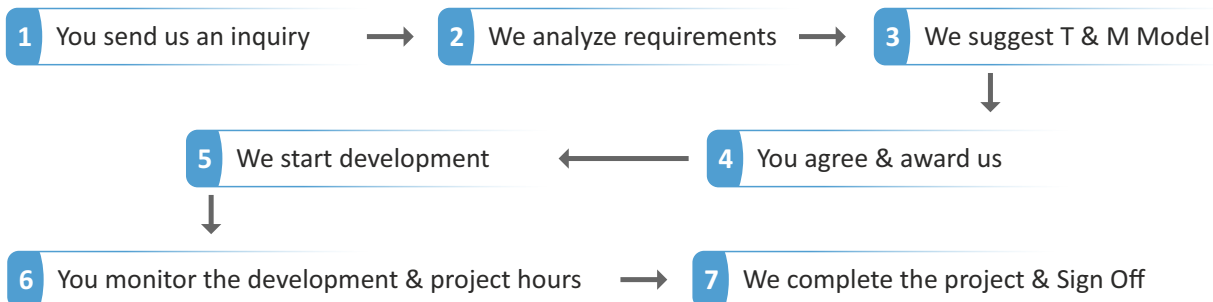

### FIXED SCOPE FIXED QUOTE MODEL

### Time and Material:

If you have a project where requirements change regularly and you want a dedicated team of developers to work on the project to maintain lesser knowledge-transfer time lags, our time and material model is the best fit. In this model, there is flexibility for clients to add or remove resources as per fluctuation in requirements.

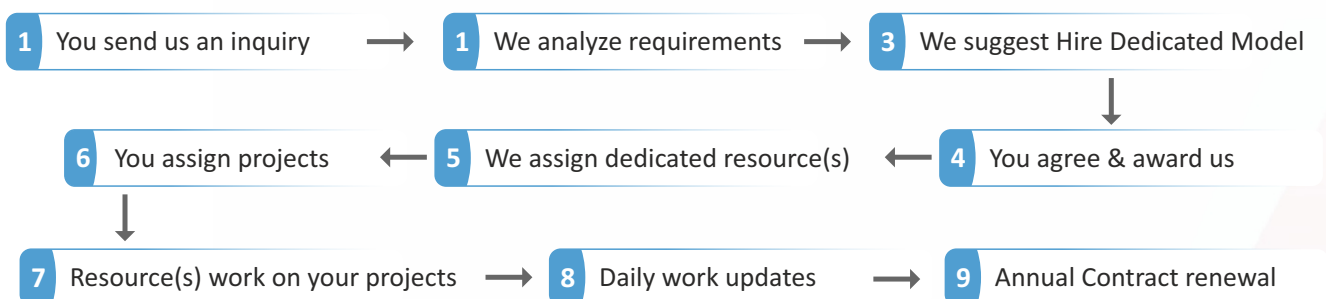

### TIME & MATERIAL (T & M) MODEL

### Hire Dedicated Model

For large projects and in which, requirements change with time, this is the best model. The offshore development center is best suitable for custom software development and mission critical projects. We appoint experienced and talented developers who work exclusively on your project to deliver high quality solutions. We only appoint those developers who have already worked on similar projects and can efficiently manage complex problems to deliver best possible results in the shortest possible times.

### HIRE DEDICATED MODEL

## Why Outsource to Volga Infotech?

- ▶ High-quality and cost-effective services.
- ▶ High-end technology and best-of-breed infrastructure.
- ▶ Skilled, talented and experienced professionals.
- ▶ Daily updates on the progress of work.
- ▶ Direct contact with the Team.
- ▶ Save on time, effort and infrastructure by outsourcing.
- ▶ Maximize revenue and minimize expenses.
- ▶ Quick turnaround time.
- ▶ Latest software and technologies.

## Assurances and Insurances

Grounded firmly on foundations of trust, teamwork and technology, Volga Infotech has been providing offshore software development services for customers across the globe. A small but fast growing company with an office space of around 2500 sq feet and total strength of 56 highly skilled staff, we have experience across various domains including Education, Healthcare, Finance, Travel, Media& Entertainment, Advertising, E-commerce, Shipping and Logistics, Social Media, Manufacturing, Real Estate, Pharmaceuticals, Food and Beverages, Law, Insurance, Telematics

All the work is done in-house and directly by people hired by Volga Infotech using the best infrastructure and the best security measures. For most of our projects we follow the Agile Software Development Methodology, an iterative form of development in which, we deliver software in releasable form at periodic intervals and proceed further based on your feedback. That way, you are always updated on the progress of the project.

Our testing process is vigorous and matches up to the highest standards in the industry. We believe in putting our customers first, and in whatever endeavor we partner on, we will look forward to being your strongest advocates.

Here's to a great partnership.
